

Berichte von Homeschooling Gruppen (Reports on Homeschooling Groups)

Bericht von März & April

Im März und April sind der Unterricht von allen 6 Schulgruppen in den drei Bundesländer (Kabul, Maidan Wardak, Helmand) fortgesetzt. Die Anzahl die Schülerinnen sind im Großen und Ganzen gleichgeblieben. Die Gruppen im Kabul mussten eine Woche im März ihrer Arbeit pausieren, da die Familie, die ein Zimmer für die Schulgruppen zur Verfügung gestellt hatte, brauchte den Raum für ihrer eignen Gebrauch. Abgesehen davon, die Lehrer*innen melden, dass die Unterrichtsstunden im April wegen des Ramadans um 25% gekürzt wurden.

Als beispiel von detaillierten Berichten wird unten den Bericht von einer Gruppe aus Maidan Wardak zusammengefasst:

- Weil die Gruppen sehr heterogen sind, wurde fokussiert daran gearbeitet, etwa die Schülerinnen auf möglichst gleiches Niveau zu bringen, um den Unterricht sowohl für die Schülerinnen als auch für die Lehrer*innen zu erleichtern.
- Die Unterrichtspläne konnten in diesen Monaten nicht planmäßig durchgeführt werden, ein wichtiger Faktor, neben die Heterogenität der Gruppen, ist die Tatsache, dass die Schülerinnen längere Zeit von Schulen ferngeblieben sind.
- Die Lehrenden haben ihren Lehrplan an die Gruppen angepasst und auch mit den Eltern gesprochen, um mit denen über das Homeschooling auszutauschen, ihr Feedback zu erhalten. Darüber hinaus wurden die Familien gebeten, ihrer Kinder mit weniger Hausarbeit und Landwirtschaft zu beschäftigen, damit sie genug Zeit für Bildung haben.

Der Lernplan, den wir im Februar durchgeführt haben, ist wie folgt:

#	Subject	Month	Topic covered
1	Math	March-April	The laws of exponents and roots, as well as their application have been taught, and now we are working on the exercises of the chapter
2	Physics	March-April	Work, energy, pressure, and Archimedes' principles were covered during these periods.
3	Chemistry	March-April	The periodic table of elements, and organic compounds were though.
5	Reading	March-April	Based on students' level, different groups completed reading short stories, newspaper articles.

**Berichte von Homeschooling Gruppen
(Reports on Homeschooling Groups)**

6	Writing	March-April	Covering topics, such as identifying exaggerations in texts, Metaphors, Narrative writing techniques
7	English	March-April	The activities covered to develop students reading and understanding skills. Some Grammar lessons, such as parts of speech were thought to some of the students.

Reports from March & April 2023 (En)

In March and April, the teaching of all 6 school groups in the three provinces (Kabul, Maidan Wardak, Helmand) continued. The number of students has remained the same. The groups in Kabul had to pause their work for a week in March because the family that had provided a room for the school groups needed the room for their own use. Apart from that, the teachers reported that the teaching hours were cut by 25% in April because of Ramadan.

As an example of detailed reports, the report of a group from Maidan Wardak is summarized below:

- Due to the groups being very heterogeneous, focused efforts were made to bring the students to the same level as much as possible, in order to make the lessons easier for both the students and the teachers.
- The lessons could not be carried out according to plan during these months; an important factor, besides the heterogeneity of the groups, is the fact that the students have been away from schools for a long time.
- The teachers adapted their curriculum to the groups and talked to the parents to discuss homeschooling, to get their feedback. Additionally, families were asked to involve their children in less housework and farming work so that they would have enough time for education.

The learning plan we carried out in February, is as follows:

#	Subject	Month	Topic covered
1	Math	March-April	The laws of exponents and roots, as well as their application have been taught, and now we are working on the exercises of the chapter
2	Physics	March-April	Work, energy, pressure, and Archimedes' principles were covered during these periods.
3	Chemistry	March-April	The periodic table of elements, and organic compounds were though.
5	Reading	March-April	Based on students' level, different groups completed reading short stories, newspaper articles.
